November 19, 2019

We are very excited about the future of the electric cooperatives and mutual electric companies in Washington. We believe that we're making a difference for the member-consumers of the electric cooperatives and mutual companies. There are many issues to face that concern our members and the electric utility industry. We also know that the cooperative "family" is very strong in Washington, and that there will be many opportunities for the family to come together to address those issues.

So, what does that mean for you?

We are now accepting applications for 2020 Associate Membership in the Washington Rural Electric Cooperative Association (WRECA). WRECA is our statewide organization and allows us to work together for the benefit of our individual utilities and our consumers.

As an Associate Member:

- 1- You will receive two free copies of the 2020 WRECA Membership Directory with a complete listing of the WRECA Regular Members, contact information and utility data.
- 2- You will be given an advance opportunity to support our Golf Tournament (June 8) and the 2020 WRECA Annual Meeting (June 9-10) in Kennewick, WA. More information about those opportunities will be sent to you soon.
- 3- And we will include your firm's name, marketing message, and website link in the WRECA website – www.wreca.coop – as a loyal supporter of WRECA and its member utilities.

Enclosed is an Associate Membership application. Please complete all the information so we'll have the correct data in our files. Then return the signed application to WRECA.

We greatly appreciate the support and services that you and your organization have provided the consumer-owned electric utilities in Washington, and we hope you will join us as we continue a tradition of excellent service for our consumers.
